

SPECIALIST RENAL MEDICAL EQUIPMENT TECHNOLOGIST

Candidate Pack

Job Summary

This summary has been generated using AI to provide a clear and accessible overview of the role. It is intended to support candidates who may find the full job description harder to read, such as those who are neurodiverse, have learning disabilities or lower literacy levels. Our goal is to make the application process more accessible and inclusive for everyone.

- This job is for someone who knows how to fix and look after medical machines. You will work mostly with kidney (renal) equipment in hospitals and clinics across Shropshire.
- You will check, repair, and safely get rid of old equipment, making sure everything works properly and safely.
- Sometimes you'll work alone and may be called out after hours to help.
- You'll help train staff and patients on how to use the equipment safely.
- You'll also keep records, follow safety rules, and help improve how things are done.

Job Description

Job title:	Specialist Renal Medical Equipment Technologist
Grade:	6
Site:	The Royal Shrewsbury Hospital
Accountable to:	MES Manager
DBS required:	Yes – standard

Post Purpose/summary:

This position is for a broad range skilled Technologist with Medical Equipment servicing experience who will have a significant amount of responsibility and autonomy. The position will take core responsibility for servicing and repair of equipment within Renal specialist areas of maintenance within the department. The Technologist commissions, safety checks, maintain and repairs and ultimately disposes of a broad range of often complex and specialised Medical Equipment.

Scope and range:

- A countywide service including all Shropshire NHS Hospitals as well as the Primary Care PCT Trusts and other external contracts. More than 34,000 assets valued at ~£40M
- Owing to the service nature and access, out of hours work will be required. On call will be required by this post holder.
- The post holder would be expected to cover the areas of the other Technologists within the team

Main duties and responsibilities of the post holder

These typical duties are not an exhaustive list or in order of importance

- Personnel are responsible for ensuring all services process requirements are complied with and these include the disciplines of purchasing, receiving, manufacture, verification maintenance and other associated process activities.
- To carry out Medical Equipment commissioning, calibration, safety checks, repair- maintenance, adaptation to manufacturer's specifications and ultimately safe disposal.
- To ensure that Medical Equipment is commissioned in line with Trust's Policy and MHRA guidelines. Subsequently that it is integrated into a Medical Device equipment management system. Thus to ensure that it is functionally checked, calibrated and safety tested according to standards.
- To certify that all necessary calibration tasks are performed regularly on equipment so that it can be used safely, correctly and ensuring patient safety and accuracy in use.
- Requisitioning of stock and materials for stores, receipt of goods, etc, including sourcing, cost coding and pricing.
- Analyse and interpret sometimes complex faults on equipment to affect an efficient remedy so that the equipment can be returned into service as soon as possible.
- To adhere to the Department's Quality Assurance Manuals/Procedures.
- To assist in the development of routine maintenance schedules to ensure that tests are performed in a standardised manner across the two sites and in line with manufacturers recommendations
- To ensure the operational safety, functional use of equipment and compliance with the appropriate safety standards and regulations.
- To arrange the demonstration and evaluations of possible new or loan items of equipment and to advise on suitability and financial implications.
- To carry out modifications and procedures as stated by Safety Alert Bulletins (SABS). –MHRA and to advise the Liaison Officer of safety or hazard issues that may arise.
- To work in an autonomous manner wherever and whenever necessary.
- To induct staff, occasionally this will include supervision of work placement students, into the department and provide in-house service training to colleagues.

- Attend such training and updating courses as appropriate and to keep abreast of new technology for continual professional development (CPD).
- To undertake administrative duties associated with the technical work, such as updating of appropriate records which are all legally binding documents.
- To review procedures and propose changes to the Quality Manager for continuous improvement.
- To liaise with manufacturers and external agencies for equipment this may not be serviced in-house.
- To support device training for all Clinical staff in the correct use of equipment and procedures for its safe operation and to identify faults. To instruct the correct use of equipment to patients when used in the home.
- To complete Service Records of all the items in use and be responsible for the data entry.
- To be accountable and personally responsible for all actions taken and carried out, along with information given out.
- Due to the nature of the work, and the purpose for which the equipment is to be used, it is essential for the post holder to follow and participate in the Trust's and Department's Health & Safety Procedures for maintaining safe, clean and methodically laid out work.
- To undertake such duties as may be assigned from time to time which are commensurate with such a position.

Systems and equipment

- Networked multi-terminal computerised equipment management system. Normal Office equipment. Departmental specialised and dedicated test equipment, including specific servicing aids and tools, i.e. basic hand tools, Callipers, Digital Multi-meters, Calibration equipment, Electronic analysers and Temperature recorders. This equipment is used to a high degree of accuracy.

Decisions, judgements and freedom to act

- Day-to-day prioritisation of work, including scheduled and emergency tasks particularly when away from base.
- To fill in initial invoices for labour and spares fitted for external income generating contracts.
- Responsibility to maintain Quality system and team performance.

Communication and relationships

- All grades of Clinical Staff. Para-Medical & ODA's, Technologists to provide equipment support information.
- Equipment Suppliers, Contractors, Hospital Procurement Dept for information and prices.
- External customers & patients for equipment support.

Physical, Mental and Emotional demands of the post

- Working in all Clinical areas are required and on occasions when visiting critical care places like Theatres, ITU then distressing circumstances may be encountered particularly with patient connected equipment and encountering relatives.
- Interruptions are expected, you must be able to prioritise workload and requirements of the Ward/Department
- Concentration is a daily requirement and occasionally periods of intense concentration are required, sometimes in stressful circumstances when working on patient connected equipment.
- There is a need to work to a high degree of precision with delicate and sensitive equipment.
- Often lifting requirement when commissioning or servicing of heavier equipment >15Kgs.

Working conditions

- Light engineering workshop environment and Office areas, Ward areas, Clinics, Theatres. Frequent visiting to other contracted service Hospitals or Healthcare establishments.
- Requirement to work in area's where there is exposure to hazardous substances (body fluids, anaesthetic agents and mercury) and may work on equipment with potentially lethal electrical hazards.
- A COSHH system operates within the department area due to service aid chemicals. Although equipment prior to servicing is subject to decontamination protocol this may not always be achieved, so body fluids may be encountered.

General conditions

As they undertake their duties, all our people are required to uphold and demonstrate the Trust's core values of: Partnering, Ambitious, Caring and Trusted. Collaboration and partnership are also central to our approach in delivering our fundamental activities of patient care, teaching, and research.

Health and safety

As an employee of the Trust, you have a responsibility to:

- take reasonable care of your own Health and Safety and that of any other person who may be affected by your acts or omissions at work; and
- co-operate with the Trust in ensuring that statutory regulations, codes of practice, local policies and departmental health and safety rules are adhered to; and
- not intentionally or recklessly interfere with or misuse anything provided in the interests of health and safety

Infection prevention and control (IPC)

The prevention and management of acquired infection is a key priority for the Trust. As an employee of the Trust, you have a responsibility to:

- ensure that your work methods are compliant with the Trust's agreed policies and procedures and do not endanger other people or yourself; and
- be aware of infection prevention and control policies, practices, and guidelines appropriate for your duties and you must follow these at all times to maintain a safe environment for patients, visitors and colleagues; and
- maintain an up-to-date knowledge of infection prevention and control, policies, practices, and procedures through attendance at annual mandatory updates and ongoing continuing professional development; and
- challenge poor infection prevention and control practices of others and to report any breaches, using appropriate Trust mechanisms (e.g. incident reporting policy)

Information governance

The Trust is committed to compliance with Information Governance standards to ensure that all information is handled legally, securely, efficiently, and effectively. You are required to comply with the Trust's Information Governance policies and standards.

Confidentiality and Security - Your attention is drawn to the confidential nature of information collected within the NHS. Whilst you are employed by the Trust you will come into contact with confidential information and data relating to the work of the Trust, its patients or employees. You are bound by your conditions of service to respect the confidentiality of any information you may come into contact with which identifies patients, employees or other Trust personnel, or business information of the Trust. You also have a duty to ensure that all confidential information is held securely at all times, both on and off site.

Disclosure of Information - To ensure that information is only shared with the appropriate people in appropriate circumstances, care must be taken to check the recipient has a legal basis for access to the information before releasing it. Upon leaving the Trust's employment and at any time thereafter you must not take advantage of or disclose confidential information that you learnt in the course of your employment, to protect yourself and the Trust from any possible legal action.

Information Quality and Records Management - You must ensure that all information handled by you is accurate and kept up-to-date and you must comply with the Trust's recording, monitoring, validation and improvement schemes and processes.

Professional standards and performance review

As an employee of the Trust, you have a responsibility to:

- participate in continuous personal development including, statutory and mandatory training as appropriate for the post; and
- maintain consistently high personal and professional standards and act in accordance with the relevant professional code of conduct; and
- take responsibility for the maintenance and improvement of personal and professional competence and to encourage that of colleagues and subordinates

Safeguarding children and vulnerable adults

We all have a personal and a professional responsibility within the Trust to identify and report abuse. This may be known, suspected, witnessed or have raised concerns. Early recognition is vital to ensuring the patient is safeguarded; other people (children and vulnerable adults) may be at risk. The Trust's procedures must be implemented, working in partnership with the relevant authorities. The Sharing of

Information no matter how small is of prime importance in safeguarding children, young people and vulnerable adults.

- As an employee of the Trust you have a responsibility to ensure that:
 - you are familiar with and adhere to the Trusts Safeguarding Children procedures and guidelines.
 - you attend safeguarding awareness training and undertake any additional training in relation to safeguarding relevant to your role.

Social responsibility

The Trust is committed to behaving responsibly in the way we manage transport, procurement, our facilities, employment, skills, and our engagement with the local community so that we can make a positive contribution to society. As an employee of the Trust, you have a responsibility to take measures to support our contribution and to reduce the environmental impact of our activities relating to energy and water usage, transport and waste.

Continuous improvement

The Shrewsbury and Telford Hospital NHS Trust is committed to creating a culture that puts Continuous Improvement at the forefront of our transformational journey and our aim is to empower colleagues at all levels have the confidence, capability, passion, and knowledge, to test changes and make improvements at SaTH and in the communities we serve.

Following a successful five-year partnership with the Virginia Mason Institute in the USA, SaTH continues to further develop and embed the Trust's approach to Continuous Improvement at all levels of the organisation. You will be supported by an Improvement Hub, which will provide the necessary expertise to support you make improvements, while also providing training at various stages of your time at SaTH, as part of your continuing professional development.

Equal opportunities and diversity

The Shrewsbury and Telford Hospital NHS Trust is striving towards being an equal opportunities employer. No job applicant or colleague will be discriminated against on the grounds of race, colour, nationality, ethnic or national origin, religion or belief, age, sex, marital status or on the grounds of disability or sexual preference.

Selection for training and development and promotion will be on the basis of an individual's ability to meet the requirements of the job.

The Shrewsbury and Telford Hospital NHS Trust the post-holder will have personal responsibility to ensure they do not discriminate, harass, bully, or contribute to the discrimination, harassment or bullying of a colleague or colleagues, or condone discrimination, harassment or bullying by others.

The post-holder is also required to co-operate with measures introduced to ensure equality of opportunity.
