Poppy's Promise

Poppy's Promise is a compassionate care initiative introduced within this Trust to enhance communication, respect and empathy across every aspect of patient care.

The initiative was founded by Katie Russell, following the loss of her daughter Poppy, who tragically died at just twelve hours old due to failures in care and communication. Born from that experience, Poppy's Promise serves as a powerful reminder that while clinical skill saves lives, it is compassion, listening and respect that define the quality of care and human connection. By embedding this promise across our organisation, we ensure that no patient or family ever feels unseen, unheard, or uncared for.

Poppy's Promise is a five-stage framework that supports NHS staff to provide compassionate, consistent and patient-centred care. It aims to create a culture where empathy and communication are prioritised at every level – from education and recruitment to daily patient interactions.

At the heart of the initiative lies the C.A.R.E. framework, which outlines four guiding principles for staff to follow. The CARE principles form the foundation of Poppy's Promise. They describe the behaviours, attitudes and values that underpin every interaction – between staff and patients, staff and families, and colleagues with one another.

CARE is not an additional task. It is how care is delivered.

C.A.R.E. Meaning and Practice

Compassion - Demonstrate genuine kindness, empathy and humanity in every interaction. Compassion means recognising the emotional as well as the physical needs of patients, families and colleagues, and responding with care, patience and understanding. Small acts of compassion can have a lasting impact.

Acknowledge - Actively listen and be fully present. Use eye contact, names and open body language, and acknowledge the individual's feelings, concerns and lived experience. Every person should feel seen, heard and taken seriously.

Respect - Treat everyone with dignity, honesty and fairness at all times. Respect individual differences, personal circumstances and lived experience. Trust is built through respectful behaviour, consistency and integrity.

Empower - Enable people to be active participants in their care and work. Communicate clearly, encourage questions and shared decision-making, and ensure patients, families and colleagues feel informed, confident and included. Poppy's Promise is more than a framework – it represents a cultural shift towards human-centred care. By adopting these principles, we:

- Strengthen trust and communication between staff and patients
- Reduce avoidable harm through better understanding and listening
- Improve patient experience and staff wellbeing
- Foster a culture of openness, empathy and shared responsibility

Every member of staff has a role to play in bringing Poppy's Promise to life. Whether you are clinical, administrative or support staff, compassion and communication are part of everyone's role.

In daily practice, you can:

- Take a moment before entering a patient's space – centre yourself, focus on the person, not the task
- Use clear, respectful and kind language
- Listen without interruption and acknowledge emotions expressed
- Be honest and transparent, even when conversations are difficult
- Reflect after interactions – consider how your approach made the patient or family feel

All staff within the Trust are expected to:

- Uphold the values of Poppy's Promise in all patient and colleague interactions
- Attend any training, workshops or refreshers provided as part of the initiative
- Support colleagues in modelling compassionate behaviours
- Raise concerns constructively when communication or respect fall short
- Reflect these principles in both professional and personal conduct within the workplace

Together, we can make every interaction an opportunity to care, listen and make a difference.

That is Poppy's Promise.

Post purpose/Summary

To provide clerical support to the Breast Imaging Department in the provision of screening and symptomatic breast services, creating and amending breast imaging appointments and recording the screening/symptomatic pathway and clinical outcomes.

Receptionist responsible for greeting patients attending for Breast Imaging appointments and entering their attendance details on departmental IT systems (NBSS & CRIS).

The post-holder will also assume responsibility for pulling and filing mammography records.

The post is principally based at the Princess Royal Hospital, but the post-holder will be required to travel to other Trust sites within Shropshire.

Scope and Range

Working under the supervision of the Breast Imaging clerical team, duties are undertaken within the Breast Imaging department by following a daily list of tasks to be performed. The nature of the job will require the post-holder to be in regular contact with all members of the breast multi-disciplinary team and other screening units, hospitals and departments.

Main Duties and Responsibilities of the post holder

- To provide clerical support to the Breast Imaging clerical team and the wider clinical breast team
- To create and amend breast imaging appointments using NBSS/CRIS.
- To attend the assessment clinic pre-meeting and record the assessment plan for each woman in preparation for their arrival in clinic.
- As Receptionist, to greet breast screening and symptomatic patients as they arrive and accurately record their attendance on NBSS/CRIS. To also record the attendance of any MRI patients that may arrive when sitting on reception as a gesture of good will.
- To deal with the full range of telephone calls into the Breast Imaging Office, including enquiries from health professionals, the general public and clients/patients.
- To monitor the generic e-mail account and act upon any messages in a timely manner.
- To assist with requests for breast screening at an alternative service.

- To prepare breast imaging packets prior to clinic and to collate them ready for re-filing, ensuring all relevant data is filed within them.
- To make breast screening appointments and prepare clinic lists for women recalled for the second stage of screening.
- To carry out data audit checks in line with NHSBSP QA guidelines.
- To organise and maintain an effective filing system for all aspects of breast imaging.
- To manage incoming and outgoing post, prioritising work to ensure that urgent matters are dealt with in a timely manner.
- To undertake printing of letters, reports, clinic schedules and client forms.
- To dispatch screening invitation and results letters to agreed timetables.
- To request previous mammograms from other services/hospitals in a timely manner for both screening and symptomatic imaging.
- To collate all images and paperwork before and after reporting.

Communications and Relationships

- Effective communication skills are essential – verbal, written and e-mail.
- To liaise with a wide range of people on a regular basis - clerical and clinical colleagues, consultants, secretaries, histology, medical records, GPs and practice nurses, NHS Digital and Breast Screening Programme support teams, wards, clients/patients and their relatives/carers.
- To liaise with other breast screening services and hospitals regarding screening clients moving to/from other areas and the requesting and dispatch of their records.
- To provide general, non-clinical advice, information and guidance directly to patients/clients, relatives and carers, using acquired knowledge to inform clients of the benefits of mammography screening and breast awareness.
- Tact and diplomacy, patience and empathy are essential in the course of considerable patient/client telephone contact.

Systems and equipment

The post-holder will be required to use the following:

Equipment:

- Computer
- Printer
- Multi-function photocopier
