

The Shrewsbury and
Telford Hospital
NHS Trust

CONSULTANT ANAESTHETIST WITH AN INTEREST IN GENERAL ANAESTHESIA

INFORMATION FOR CANDIDATES

Our Vision and Values

The Shrewsbury and Telford Hospital NHS Trust is an organisation that strives to provide high quality, safe care for our patients in an environment which our staff are proud to work in

Our Vision:

“To provide excellent care for the communities we serve”

Our Values:

About our Vision

We believe that by adhering to our Vision and working with our Values in mind we can behave in a way which will ensure the right results for the people that matter most – our patients and their families.

About our Values

Our Trust Values provide a guide for our daily lives which we are all expected to uphold, both at work and when we are representing the Trust.

Our Values were developed by staff and our patients, so they represent what is important to us within the organisation and the way we should all behave towards patients, carers, visitors, partners and each other.

You will see our Values throughout the Trust; they are not just words on a page, they represent what we are about here at SaTH. We want patients and their families to say that the care and service they receive from all of us is consistently high-quality, safe, effective and personalised, so the feelings behind the Values shouldn't come as a surprise to anyone working in the NHS.

The reason why it is important that they are clearly written down is so we all know what's expected, and none of us are surprised if we are asked to explain any unacceptable behaviour.

About the Trust & Hospital Transformation Programme

The Shrewsbury and Telford Hospital NHS Trust (SaTH) is the main provider of acute hospital services for around half a million people in Shropshire, Telford & Wrekin and mid Wales.

Encompassing some of the most picturesque parts of England and Wales, the Trust's catchment stretches from the Cambrian Mountains in the west, to Newport and the fringes of the Black Country in the east. The main towns include: Bridgnorth, Ludlow, Market Drayton, Oswestry, Shrewsbury and Whitchurch (in Shropshire); Newport, Telford and Wellington (in Telford & Wrekin); and Newtown and Welshpool (in Powys) – all beautiful and unique.

Our main service locations are the Princess Royal Hospital (PRH) in Telford and the Royal Shrewsbury Hospital (RSH) in Shrewsbury which are located 20 minutes' drive apart. Together they provide 99% of our activity. Both hospitals provide a wide range of acute hospital services including accident & emergency, outpatients, diagnostics, inpatient medical care and critical care.

We also provide services such as consultant-led outreach clinics at the Wrekin Community Clinic, Telford, the Robert Jones and Agnes Hunt Orthopaedic Hospital, Gobowen and the Bridgnorth, Ludlow and Whitchurch Community Hospitals.

We employ over 7000 staff, and hundreds of staff and students from other organisations also work in our hospitals. At The Shrewsbury and Telford Hospital NHS Trust (SaTH), there are around 300 volunteers who support patients, their families and colleagues. That net is cast even wider if you include the many charities and organisations whose volunteers also support the Trust including the Lingen Davies Cancer Appeal which is based at the Royal Shrewsbury Hospital.

Our priority is to deliver the best possible diagnostic facilities and high-quality clinical care in a clean, supportive setting. We are committed to ensuring every patient receives effective treatment with respect and dignity.

As part of our long-term vision, to enhance patient care and service delivery, selected services will be either relocating or moving to a cross-site model in 2028. The changes will further bring together our specialist services into a purpose built, modern environment designed to enhance patient care and provide improved working experience for our teams.

As we are currently actively recruiting to roles across services that will be relocating or changing the way the service is delivered, we want to be transparent with all applicants and advise that successful candidates will be expected to move with the service to the Royal Shrewsbury Hospital when the relocation takes place, in early 2028, or move to a cross-site working model.

The relocation will be managed through a formal management of change process, with full consultation and support provided to colleagues throughout the process. An overview of the services that are moving are included on page five of the job pack.

Overview of Changes

Royal Shrewsbury Hospital will specialise in Emergency Care:

- Emergency Department
- Urgent Treatment Centre
- Critical Care Unit
- Consultant-led Maternity Care
- Children's Inpatient Services
- Emergency and Trauma Surgery with complex, planned and children's surgery
- Emergency Medicine, including Cardiology, Stroke, Respiratory, and Acute Medicine
- Consultant Neonatal Services
- Radiotherapy and inpatient and day Cancer Care and Treatment

The Princess Royal Hospital will specialise in Planned Care:

- Diagnostic Endoscopy
- Vibrant planned care site planned inpatient surgery with medical and surgical inpatients on a planned pathway of care.
- Adult and Child outpatients
- Day case surgery centre
- Midwife led unit
- 24/7 urgent treatment service, which would enable 65% patients who would have attended the traditional accident and emergency medicine department to be seen at PRH
- Dedicated procedure suite for local anaesthetics
- Enhanced rehab facilities and new therapy led wards
- Respiratory diagnostic and treatment centre
- Cancer treatment day unit

Introduction

We are looking for an enthusiastic, highly driven Consultant Anaesthetist with to join our expert and energetic team.

We currently have two vibrant hospital sites each with a varied range of services available. Our hospitals are brimming with exemplary teams of hardworking individuals. Both hospitals will be further enhanced in the future due to a significant investment called the Hospital Transformation Programme (HTP) that will see the creation of one acute hospital site (The Royal Shrewsbury Hospital) which will include a 30 bed Critical Care Unit, an Emergency Department and a Women and Children's centre and one planned care hospital site (The Princess Royal Hospital) for most of the elective surgery.

We are delighted to offer one post involving regular general anaesthesia sessions. The successful applicant will work sessions on both hospital sites with on-calls based at The Princess Royal Hospital. Please note that we are restructuring services in preparation for the HTP and as such future on calls may include anaesthesia on-calls on one or both sites. There are also opportunities to get involved in pre-operative assessment clinics, paediatric anaesthesia and day case anaesthesia in our brand-new elective hub, which opened in June 2024.

Our "Getting to Good Programme" is the key delivery programme for the organisation's priorities this year. The aim and focus of this program is to embed improvements, create ownership and deliver sustainable change to support the organisation to achieve its overarching vision to provide excellent care to the communities we serve.

This is an ideal opportunity to become part of a dedicated team of anaesthetists in which there are many development opportunities. The post will consist of 10 PAs with non-resident on-call responsibility.

There are currently 2.5 SPAs allocated for supporting professional activities, 1.5 which is for appraisal, revalidation and CPD. There are many opportunities for fulfilling these SPA obligations in anaesthesia at SATH: teaching (including simulation and other MDT opportunities), governance, guideline updates, service improvement, critical incident reviews, electronic record improvements, team building, QI and audits.

Shropshire is a relatively undiscovered gem; it is a beautiful county with a large, rural population and low population density. It is home to a UNESCO World Heritage Site covering Ironbridge, Coalbrookdale and a part of Madeley, as well as the Shropshire Hills Area of Outstanding Natural Beauty (AONB) which covers about a quarter of the county. This lends itself to any number of outdoor pursuits from hill walking, fell running and mountain biking to gliding and sailing.

Although there are 22 towns in the county, the population is centred around Telford to the east and the historic county town of Shrewsbury. In 2019, Shrewsbury was named one of the best places to live in the UK by the Sunday Times which described it as "an exceptionally attractive, defiantly unaffected town with an award-winning market and sweeping views".

Job Description

Job Title:	Consultant Anaesthetist with an Interest in General Anaesthesia
Grade:	Consultant
Division:	Surgery, Anaesthetics and Cancer
Responsible to:	Divisional Medical Director
Professionally Accountable to:	Medical Director / Responsible Officer
Hours:	10 Programmed Activities
Duration:	Permanent
Salary:	£109,725 - £145,478 (YC72 Point 00 - YC72 Point 19)

The Post

There is no lack of variety and interesting opportunities for a prospective postholder to get involved in. The Trust offers surgical specialities in the form of Urology, Orthopaedic Trauma, Ophthalmic surgery, Vascular Surgery, Obstetrics and Gynaecology, Head & Neck Surgery, some Paediatric Surgery and ENT surgery. We also have a busy pre-operative assessment service that not only includes daily pre-operative assessment clinics but also CPEX testing.

The post holder will be expected to deliver elective theatre sessions on both hospital sites. The colorectal surgery department is mainly based on the Shrewsbury site and is the 10th largest colorectal cancer unit in the UK (ACPGBI data) with 10 colorectal consultants and 6 upper GI consultants who together cover the busy on-

call rota. All six upper GI surgeons do bariatric surgery.

RSH is a major contributor to the NELA project with over 300 emergency laparotomies a year and is also an approved site for the FLOELA trial looking at goal directed fluid therapy in the same cohort of patients.

Enhanced recovery is a key part of departmental practice and SATH has made a commitment to continually improve the service. The colorectal department is in the process of acquiring a surgical robot.

The Trust has recently invested and acquired a suite and Intuitive da Vinci Xi robotic system to perform robotic surgery in various specialities. This creates an exciting opportunity to get involved in anaesthetic service provision and planning in colorectal, urology and gynae-oncology robotic surgery.

The Anaesthetic Department - Princess Royal Hospital

The Princess Royal Hospital includes Medical, Orthopaedic and Trauma, Gynaecology and Paediatric wards, the Consultant Maternity unit, TESH (Telford Elective Surgical Hub), Accident and Emergency Department, Critical Care Unit and Coronary Care Unit.

There are 9 operating theatres (including 4 theatres in the elective hub) which provide trauma, orthopaedic, ENT, maxillo-facial, breast, gynaecological and paediatric surgery. There are two theatres within the delivery suite.

The Anaesthetic Department - Royal Shrewsbury Hospital

The Royal Shrewsbury Hospital has 9 operating theatres close to the Critical care unit, which provide general, colorectal, upper GI/Bariatric, urological, vascular, ophthalmic, trauma, orthopaedic and robotic gynaecological surgery.

Areas of Special Interest

Consultants	Areas of Special Interest
Dr Omu Davies	Interest in Intensive care, Clinical Governance Lead
Dr Shelly Jurai	Clinical Director for Anaesthesia, Paediatric Anaesthesia, Head and Neck
Dr Saiprasad Annadurai	Lead for paediatric anaesthesia and Hub Lead, Head and Neck anaesthesia
Dr Gauri Dashputre	Pre-op assessment, Head and Neck, Difficult Airway
Dr Asis Behura	General anaesthesia, Lead for preoperative assessment
Dr Rajesh Shivanna	Lead for Enhanced Recovery Pathway, Interest in Orthopaedics and Paediatrics
Dr Vivek Eli	College Tutor, General and Obstetric anaesthesia, Head and Neck
Dr Sudheer Jillella	Paediatric Anaesthesia and Head and Neck
Dr Kumar Kada	Educational Supervisor for Foundation trainees, General and Obstetric Anaesthesia
Dr Edwin Borman	Preoperative Assessment and General Anaesthesia
Dr James Moon	Intensive care and CPEX
Dr Fiona Jutsum	TPD for Foundation trainees, Interest in Intensive care and vascular anaesthesia
Dr Mike Dixon	Interest in Intensive Care and vascular anaesthesia, CESR Lead
Dr Chris Mowatt	Clinical Director for Intensive Care, Elected board member of the Association of Anaesthetists
Dr Ashley Miller	Interest in Intensive Care, Trust lead for organ donation, Elected ICS council member, Chair of CUSIC committee, Co-chair of FUSIC committee
Dr Yee Cheng	Clinical Lead for Obstetrics Anaesthesia
Dr Rob Law	General Anaesthesia and CPEX
Dr Stuart Booth	Interest in Intensive Care and ITU Governance
Dr Lorien Branfield	Obstetric anaesthesia, Human Factors, medical education and simulation
Dr Gordon Kulemaka	IT Clinical Lead, Interest in colorectal anaesthesia

Dr Karuna Ferdinand	Interest in Vascular and Paediatric anaesthesia, Clinical Governance Lead
Dr Simon Leach	Lead for pre-op assessment and Interest in colorectal anaesthesia
Dr Paul Jones	Keele University Tutor, Colorectal Anaesthesia
Dr Robin Hollands	Orthopaedic Trauma Lead
Dr Louise Sykes	Interest in bariatric and colorectal anaesthesia
Dr Chris De Klerk	Clinical Director for Anaesthesia, Vascular Anaesthesia, Trust Lead for Sedation
Dr Andreas Zafiropoulos	College Tutor, Interest in Vascular Anaesthesia and pre op assessment
Dr Szilvia Bertok	Interest in colorectal, max-fax and ENT
Dr Sam Liu	Pre-op Assessment, Robotic Surgery Lead
Dr Nikki Faulkner	Intensive Care

Other staff members of the Anaesthetic Department are:

Associate Specialist	2.0 WTE
Specialists	12.0 WTE
Locally Employed Doctors	9.0 WTE
Speciality Doctors	9.0 WTE
Full time secretaries	2.5 WTE

Specialist Core Trainees - on rotation from Stoke-on-Trent School of Anaesthesia - 10 WTE

Specialist trainees - a rotation exists between Shrewsbury, Telford, and Wolverhampton - 7 WTE

A well-established outreach critical care team – 1 WTE

The Critical Care Service

At the Royal Shrewsbury Hospital, the Critical Care Unit currently has 14 beds (Total dependency of 8). Eight Consultants provide day and night cover.

At the Princess Royal Hospital there are 11 critical care beds (total dependency of 6). Intensive Care Consultants provide daytime Critical Care cover and out of hours cover is provided by a pool of general anaesthetists and Intensivists currently.

Both Hospitals have easy access to the other's critical care beds should the need for overspill arise. There is hospital specific Consultant cover both day and night.

There is an outreach service on the general wards run very successfully by critical care trained nurses. The Trust is the development site for vital PAC, an electronic Early Warning System that has won numerous innovation awards, adopting it enthusiastically some years ago as only one of two Trusts in the Country at that time. Many new features are being integrated into the system to improve patient ward safety. All Junior Doctors and many nurses at Shrewsbury participate in a "deteriorating patient Simulation course" in our bespoke dedicated simulation lab.

Trust Activity

The Trust also offers further surgical specialities in the form of Urology, Orthopaedic Trauma, Ophthalmic surgery, Vascular Surgery, Colorectal, Obstetrics and Gynaecology, Head & Neck Surgery, Paediatric Surgery and ENT surgery. We also have a vibrant and busy pre-operative assessment service that not only include daily pre-operative assessment clinics but also CPEX testing. The Trust has recently invested and acquired a suite to perform robotic surgery in various surgical specialities.

Rota & On-Call Arrangements

The on-call anaesthetic cover at PRH is as follows:

- The first on-call cover the CEPOD theatres, attend resuscitation calls and support the second on call in ITU patient care. The CEPOD theatres at PRH predominantly cater for gynaecological, paediatric, head and neck, trauma, and maxillofacial emergencies. Currently 1:8
- The second on-call is provided by the STs, specialty doctors and specialists, working full shifts – primarily for ITU. Currently 1:8
- There is an obstetric anaesthetic on-call rota with specialist obstetric anaesthetists covering the labour ward out of hours. Currently 1:8.

There are two consultants who provide support to the resident tiers. Consultant 1 covers CEPOD and Obstetrics, Consultant 2 covers ITU and paediatric resuscitation.

Currently there are Emergency departments and Intensive Care units at both the Royal Shrewsbury Hospital and the Princess Royal Hospital. The medical “acute take” and acute Orthopaedics is split between both Hospitals. The CEPOD theatres at RSH cater for adult general surgery, urology, vascular and ophthalmic emergencies.

Head injured adults needing Surgery or admission to a Neurosurgical unit are generally transferred to Stoke - on -Trent’s Neurosurgical Unit or to the University Hospital in Birmingham. Paediatric patients requiring intensive care are stabilised by a MDT comprising paediatric and anaesthetic staff and are transferred to PICUs in Stoke- on- Trent or Birmingham and are coordinated by the KIDS and Neonatal transfer service.

Consultant On-Call

The on-call commitment on the PRH site currently consists of a 1 in 12 rota where the duties include out-of-hours cover for Obstetrics and General Anaesthesia. Since November 2023, the out of hours Intensive Care cover is provided by a pool of consultants (Generalists and Intensivists on a voluntary basis as locums). This tier was created to cope with additional clinical pressures and to fulfil Ockenden recommendations. Trauma weekend cover is currently done on a voluntary basis remunerated additional to contractual obligations.

The aim of this recruitment drive is to increase consultant presence and consultant delivered care in the Obstetric suite.

Postholders will exclusively cover Obstetric and CEPOD theatres while on-call ICU cover will be a separate tier of on-call cover. This is currently an approved temporary arrangement that will terminate when services move across to one site with the Hospital Transformation Plan creating a permanent separate ICU rota.

The intensity of the on-calls is classed as Category A with an on-call supplement of 3%.

As there is a busy paediatric centre at the Princess Royal Hospital, the successful applicant would have to be competent in dealing with paediatric theatre cases down to age 2 and be able to assist the paediatricians and the Intensive care team with the stabilisation of the critically ill child prior to transfer.

There are 3 tiers of on-call Anaesthetic cover:

- The first on-call is provided by the Core Trainees (1/2) and Specialty Doctors (full shift pattern)
- The second on-call is provided by the Specialist Trainees (3+) and Specialty Doctors, working full shifts
- There is a separate rota with specialist obstetric anaesthetists covering the labour ward out of hours
- The Consultant Anaesthetist supply non-resident on-call cover

Currently there are Emergency departments and Intensive Care units at both the Royal Shrewsbury Hospital and the Princess Royal Hospital. The medical “acute take” and acute Orthopaedics is split between both Hospitals.

Head injured adults needing Surgery or admission to a Neurosurgical unit are generally transferred to Stoke on Trent's Neurosurgical Unit or to the University Hospital in Birmingham. Paediatric patients requiring intensive care are transferred to PICUs in Stoke on Trent or Birmingham.

Job Plan

A formal job plan will be agreed between the successful candidate and their Clinical Director and consultant colleagues, on behalf of the Medical Director within 3 months of starting in post. A full-time job plan is based on a 10 PA working week. The job plan will be reviewed annually and is a prospective agreement that sets out the consultant's duties, responsibilities, and objectives for the coming year. It covers all aspects of a consultant's professional practice including clinical work, teaching, research, education and managerial responsibilities. It will provide a clear schedule of commitments, both internal and external and will include personal objectives, detailing links to wider service improvements and trust strategic priorities.

For a full-time contract, the job plan will be divided on average per week (pro-rata for a part time post) as:

- 7.5 Programmed Activities (PAs) of Direct Clinical Care - includes clinical activity, clinically related activity, and predictable (0.6 PA) and unpredictable (0.65 PA) emergency work.
- 2.5 Supporting Professional Activities (SPAs) - includes CPD, audit, teaching and research.

The allocation of PAs is reviewed and may be subject to adjustment when a further diary exercise is undertaken or if the service demands a review of the team job plan.

Any applicant who is unable, for personal reasons, to work full-time will be eligible to be considered for the post. If such a person is appointed, modification of the job content will be discussed on a personal basis with the Trust in consultation with other consultant colleagues.

Timetable

The following provides scheduling details of the clinical activity and clinically related activity components of the appointee's standard working week.

Day	Time	Work	Category	No. of PAs
Monday	AM	Breast	DCC	1.25
	PM	Breast	DCC	1.25
Tuesday	AM	Upper GI/Robotic	DCC	1.25
	PM	Non-Working	N/A	N/A
Wednesday	AM	SPA	SPA	1.25
	PM	SPA	SPA	1.25
Thursday	AM	Non-Working	N/A	N/A
	PM	Non-Working	N/A	N/A
Friday	AM	Paediatrics PRH/ RSH* theatres	DCC	1.25
	PM	Paediatrics PRH/ RSH* theatres	DCC	1.25
Unpredictable / emergency on-call work			DCC	0.65
Predictable / emergency on-call work			DCC	0.6
Total PAs	Direct clinical care			7.5
	Supporting professional activities			2.5

*List start and finish time are 08:00 – 18:00

This timetable is indicative only and the formal job plan will be agreed between the successful applicant and their clinical director within 3 months of starting in post.

Teaching of Trainees and Undergraduate

Teaching for the anaesthetic Core and Specialist Trainees is currently undertaken jointly between Shrewsbury and Telford.

Primary Fellowship candidates have a whole day teaching session every two weeks, half of the time in Stoke-on-Trent, and the remainder of the time rotated around the other member hospitals of the Stoke-on-Trent School of Anaesthesia (Burton-on-Trent, Stafford, Sandwell, Walsall, and Wolverhampton.)

Final fellowship candidates attend teaching sessions and courses run at Stoke-on-Trent.

Undergraduate teaching is undertaken in conjunction with Keele University Medical School. The Medical School consistently achieves a high rating in the National Student Survey having achieved joint first place from 2014 – 2017, and second place in 2018 and 2019. Students with an interest in Anaesthesia are encouraged to attend the consultant lists for teaching.

There is a Post Graduate Centre within the hospital with a well-stocked library containing periodicals, journals and standard textbooks. The library is open into the evenings and staffed by full time librarians. All staff have access to computer facilities both here and within their offices in the anaesthetic department.

Study leave will be approved in conformity with regional and national policy.

Overall Responsibility of the post

The Consultant members of the Anaesthetic Department are responsible to the Medical Director, Dr John Jones. All Consultants are expected to provide support to the trainees and actively contribute to training and for continuity of service at a senior level.

General Conditions

Annual Leave

Doctors upon first appointment to the Consultant grade shall be entitled to annual leave at the rate of 32 days a year.

Doctors who have completed a minimum of 7 years' service as a Consultant shall be entitled to annual leave at the rate of 34 days per year.

The rate of annual leave will be based on a full time contract of 10 PAs. Additional PAs above 10 PAs will not accrue additional entitlements to annual leave over and above the full time allocation. For consultants working part-time, the full time entitlement will be pro-rated in accordance with the contracted PAs.

Study and Professional Leave

Professional and Study leave includes but is not restricted to participation in:

- Study, usually but not exclusively or necessarily on a course or programme;
- Research
- Teaching
- Examining or taking examinations
- Visiting clinics and attending professional conferences
- Training

The appointee will be entitled to 30 days of Study/Professional Leave across a 3 year fixed period with a set budget.

Research

It is usual for the Trust to be participating in many research projects at any time. Every effort would be made to accommodate a particular research interest you may have, particularly if trainee members of the department could be incorporated in the methodological and practical stages.

Audit

Great importance is placed upon audit within the Shrewsbury and Telford Hospital NHS Trust and you will be expected to contribute to this as part of your role. The Trust has a fully staffed Audit Department at both hospitals with extremely well-organised teams.

Appraisal, Revalidation and Mentorship

- The Trust has the required arrangements in place, to ensure that all Doctors have an annual appraisal with a trained appraiser and supports all Doctors going through the revalidation process.
- The Trust supports the Royal College of Physicians Guidance on provision of mentors for new Consultants, in line with GMC recommendations. This will be provided within the Trust.
- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Premier IT Revalidation e-Portfolio (PReP) Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.
- A formal review of the job plan will be performed at least annually. Appropriate educational and training needs will be supported by the Trust, as agreed with the LNC (for example, the approval and funding of study leave). An annual job plan review at individual and departmental level is being introduced. You will be expected to participate in this exercise.

- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Equiniti Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.

Accommodation

The Trust offers single residential accommodation for medical staff depending on availability. The Trust only provides single accommodation so private rental would need to be arranged for family accommodation.

Other Facilities

There is an active Doctors Mess run by the Junior Doctors Mess Committee which organise social events, parties, outings etc. There are on-site fitness centres (a membership fee is payable) available to all members of staff

Office and Secretarial Support

The post holder will have full-time secretarial support with an adequately equipped office that will include a computer with access to Trust IT facilities.

Staff Benefits

There are a number of staff benefits schemes which attract tax reductions if joined. This includes a discount on the staff car parking charge, staff gym membership, on-site crèche/childcare provision and access to NHS Discounts schemes.

Health & Safety

As an employee of the Trust you have a responsibility to:

- Take reasonable care of your own health and safety and that of any other person who may be affected by your acts or omissions at work, and ensuring a COVID secure workplace for the team.
- Co-operate with the Trust in ensuring that Statutory Regulations, Codes of Practice, Local Policies and Departmental Health and Safety Rules are adhered to.
- To not intentionally or recklessly interfere with or misuse anything provided in the interests of health and safety.

Infection Prevention and Control

The prevention and management of acquired infection is a key priority for the Trust. Any breach of Infection Control Policies is a serious matter which may result in disciplinary action. As an employee of the Trust you have a responsibility to:

- Ensure that your work methods are compliant with the Trust's agreed policies and procedures and do not endanger other people or yourself.
- Be aware of Infection Prevention and Control Policies, Practices and Guidelines appropriate for your duties and you must follow these at all times to maintain a safe environment for patients, visitors and staff.
- Maintain an up-to-date knowledge of Infection Prevention and Control, Policies, Practices and Procedures through attendance at annual mandatory updates and ongoing continuing professional development.
- Challenge poor infection prevention and control practices of others and to report any breaches, using appropriate Trust mechanisms (e.g. incident reporting policy).

Information Governance

The Trust is committed to compliance with Information Governance standards to ensure that all information is handled legally, securely, efficiently and effectively. You are required to comply with the Trust's Information Governance policies and standards. Failure to do so may result in action being taken in accordance with the Trust's Disciplinary Procedure.

- Confidentiality and Security - Your attention is drawn to the confidential nature of information collected within the NHS. Whilst you are employed by the Trust you will come into contact with confidential information and data relating to the work of the Trust, its patients or employees. You are bound by your conditions of service to respect the confidentiality of any information you may come into contact with which identifies patients, employees or other Trust personnel, or business information of the Trust. You also have a duty to ensure that all confidential information is held securely at all times, both on and off site.
- Disclosure of Information - The unauthorised use or disclosure of information relating to the Trust's activities or affairs, the treatment of patients or the personal details of an employee, will normally be considered a serious disciplinary offence which could result in dismissal. Upon leaving the Trust's employment and at any time thereafter you must not take advantage of or disclose confidential information that you learnt in the course of your employment. Unauthorised disclosure of any of this information may be deemed as a criminal offence. If you are found to have permitted the unauthorised disclosure of any such information, you and the Trust may face legal action.
- Information Quality and Records Management - You must ensure that all information handled by you is accurate and kept up-to-date and you must comply with the Trust's recording, monitoring, validation and improvement schemes and processes.

Professional Standards and Performance Review

As an employee of the Trust you have a responsibility to:

- Participate in statutory and mandatory training as appropriate for the post.
- Maintain consistently high personal and professional standards and act in accordance with the relevant professional code of conduct.
- Take responsibility for the maintenance and improvement of personal and professional competence and to encourage that of colleagues and subordinates.
- Participate in the Trust's appraisal processes including identifying performance standards for the post, personal objective setting and the creation of a personal development plan in line with the NHS Knowledge and Skills Framework outline for the post.

Safeguarding Children and Vulnerable Adults

We all have a personal and a professional responsibility within the Trust to identify and report abuse. This may be known, suspected, witnessed or have raised concerns. Early recognition is vital to ensuring the patient is safeguarded; other people (children and vulnerable adults) may be at risk. The Trust's procedures must be implemented, working in partnership with the relevant authorities. The Sharing of Information no matter how small is of prime importance in safeguarding children, young people and vulnerable adults.

As an employee of the Trust, you have a responsibility to ensure that:

- You are familiar with and adhere to the Trust's Safeguarding Children Procedures and Guidelines.
- You attend Safeguarding Awareness Training and undertake any additional training in relation to safeguarding relevant to your role.

Social Responsibility

The Trust is committed to behaving responsibly in the way we manage transport, procurement, our facilities, employment, skills and our engagement with the local community so that we can make a positive contribution to society. As an employee of the Trust, you have a responsibility to take measures to support our

contribution and to reduce the environmental impact of our activities relating to energy and water usage, transport, and waste.

Continuous Improvement

The Shrewsbury and Telford Hospital NHS Trust is committed to creating a culture that puts Continuous Improvement at the forefront of our transformational journey and our aim is to empower colleagues at all levels have the confidence, capability, passion, and knowledge, to test changes and make improvements at SaTH and in the communities we serve.

Following a successful five-year partnership with the Virginia Mason Institute in the USA, SaTH continues to further develop and embed the Trust's approach to Continuous Improvement at all levels of the organisation. You will be supported by an Improvement Hub, which will provide the necessary expertise to support you make improvements, while also providing training at various stages of your time at SaTH, as part of your continuing professional development.

No Smoking Policy

There is a no smoking policy in operation within the Trust. Smoking within the Trust's premises or within the Trust's grounds is not permitted.

Miscellaneous

This job description is an outline of the key tasks and responsibilities of the post and is not intended to be an exhaustive list. The job may change over time to reflect the changing needs of the Trust and its services as well as the personal development.

Person Specification

The following pages contain a description of the qualifications, skills, experience, knowledge and other attributes a candidate should ideally possess to successfully perform this role.

QUALIFICATIONS

CRITERIA	ESSENTIAL	DESIRABLE
<ul style="list-style-type: none"> • MBBS, MbCHB or equivalent medical qualification. • Royal College Diploma (e.g., FRCA, MRCP, FRCM) • ALS or equivalent certification • APLS certification • Level 3 Safeguarding Children training (within the last 3 years) • Higher degree (e.g. MD or PhD) or evidence of higher education 	<ul style="list-style-type: none"> ✓ ✓ ✓ ✓ ✓ ✓ 	<ul style="list-style-type: none"> ✓
