

The Shrewsbury and
Telford Hospital
NHS Trust

Locum Consultant Radiologist with specialist interest in Chest Imaging

INFORMATION FOR CANDIDATES

Our Vision and Values

The Shrewsbury and Telford Hospital NHS Trust is an organisation that strives to provide high quality, safe care for our patients in an environment which our staff are proud to work in

Our Vision:

“To provide excellent care for the communities we serve”

Our Values:

About our Vision

We believe that by adhering to our Vision and working with our Values in mind we can behave in a way which will ensure the right results for the people that matter most – our patients and their families.

About our Values

Our Trust Values provide a guide for our daily lives which we are all expected to uphold, both at work and when we are representing the Trust.

Our Values were developed by staff and our patients, so they represent what is important to us within the organisation and the way we should all behave towards patients, carers, visitors, partners and each other.

You will see our Values throughout the Trust; they are not just words on a page, they represent what we are about here at SaTH. We want patients and their families to say that the care and service they receive from all of us is consistently high-quality, safe, effective and personalised, so the feelings behind the Values shouldn't come as a surprise to anyone working in the NHS.

The reason why it is important that they are clearly written down is so we all know what's expected, and none of us are surprised if we are asked to explain any unacceptable behaviour.

About the Trust & Hospital Transformation Programme

The Shrewsbury and Telford Hospital NHS Trust (SaTH) is the main provider of acute hospital services for around half a million people in Shropshire, Telford & Wrekin and mid Wales.

Encompassing some of the most picturesque parts of England and Wales, the Trust's catchment stretches from the Cambrian Mountains in the west, to Newport and the fringes of the Black Country in the east. The main towns include: Bridgnorth, Ludlow, Market Drayton, Oswestry, Shrewsbury and Whitchurch (in Shropshire); Newport, Telford and Wellington (in Telford & Wrekin); and Newtown and Welshpool (in Powys) – all beautiful and unique.

Our main service locations are the Princess Royal Hospital (PRH) in Telford and the Royal Shrewsbury Hospital (RSH) in Shrewsbury which are located 20 minutes' drive apart. Together they provide 99% of our activity. Both hospitals provide a wide range of acute hospital services including accident & emergency, outpatients, diagnostics, inpatient medical care and critical care.

We also provide services such as consultant-led outreach clinics at the Wrekin Community Clinic, Telford, the Robert Jones and Agnes Hunt Orthopaedic Hospital, Gobowen and the Bridgnorth, Ludlow and Whitchurch Community Hospitals.

We employ over 7000 staff, and hundreds of staff and students from other organisations also work in our hospitals. At The Shrewsbury and Telford Hospital NHS Trust (SaTH), there are around 300 volunteers who support patients, their families and colleagues. That net is cast even wider if you include the many charities and organisations whose volunteers also support the Trust including the Lingen Davies Cancer Appeal which is based at the Royal Shrewsbury Hospital.

Our priority is to deliver the best possible diagnostic facilities and high-quality clinical care in a clean, supportive setting. We are committed to ensuring every patient receives effective treatment with respect and dignity.

As part of our long-term vision, to enhance patient care and service delivery, selected services will be either relocating or moving to a cross-site model in 2028. The changes will further bring together our specialist services into a purpose built, modern environment designed to enhance patient care and provide improved working experience for our teams.

As we are currently actively recruiting to roles across services that will be relocating or changing the way the service is delivered, we want to be transparent with all applicants and advise that successful candidates will be expected to move with the service to the Royal Shrewsbury Hospital when the relocation takes place, in early 2028, or move to a cross-site working model.

The relocation will be managed through a formal management of change process, with full consultation and support provided to colleagues throughout the process. An overview of the services that are moving are included on page five of the job pack.

Overview of Changes

Royal Shrewsbury Hospital will specialise in Emergency Care:

- Emergency Department
- Urgent Treatment Centre
- Critical Care Unit
- Consultant-led Maternity Care
- Children's Inpatient Services
- Emergency and Trauma Surgery with complex, planned and children's surgery
- Emergency Medicine, including Cardiology, Stroke, Respiratory, and Acute Medicine
- Consultant Neonatal Services
- Radiotherapy and inpatient and day Cancer Care and Treatment

The Princess Royal Hospital will specialise in Planned Care:

- Diagnostic Endoscopy
- Vibrant planned care site planned inpatient surgery with medical and surgical inpatients on a planned pathway of care.
- Adult and Child outpatients
- Day case surgery centre
- Midwife led unit
- 24/7 urgent treatment service, which would enable 65% patients who would have attended the traditional accident and emergency medicine department to be seen at PRH
- Dedicated procedure suite for local anaesthetics
- Enhanced rehab facilities and new therapy led wards
- Respiratory diagnostic and treatment centre
- Cancer treatment day unit

A message from our Clinical Director

Welcome to the opportunity to join our dynamic and forward-thinking Department. At the heart of our service is a deeply ingrained culture of collaboration, shared responsibility, and continuous improvement. We believe that delivering exceptional patient care and service delivery is a collective effort – our team thrives on working together, sharing workloads fairly, and supporting one another through every challenge.

Our department operates within a well-structured framework that encourages open communication and teamwork across all levels. We foster a positive team ethos where every voice is valued, and our open-door policy means that you will always find accessible advice and support.

If you are passionate about working within a supportive, collaborative environment that values team working and continuous learning, then we would be delighted to welcome you to our team.

Thank you for considering this exciting opportunity to make a meaningful difference in the lives of our patients and community.

Dr Metelko

Dr M Metelko
Clinical Director

Main Duties & Responsibilities

Clinical

- Share in the general imaging workload and collaborate with colleagues to support tumour-specific and other sub-specialty reporting, using PACS.
- Contribute to the general work of the department would be expected from the successful applicant, including reporting of the general radiographic examinations carried out within the main sites, as well as in the various community hospital locations in Shropshire and the CDC.
- Maintain a general Radiology practice while contributing to sub-specialty areas, as per departmental needs.
- To work flexibly according to changes in work patterns and requirements. Requirement to participate in the non-resident on call and resident evening and weekend working. On call overnight is outsourced from 8.30pm to 8.30am and weekdays and weekends after 5.30pm to provide a more palatable and sustainable work pattern. On site attendance will occasionally be necessary during on call periods.
- General radiological sessions will include in and outpatient cross section as well as plain films and body ultrasound. General skills must be maintained to support the acute hospitals' needs in evening and weekend working.
- Addressing GP and clinician queries and vetting are core to the role.
- To be involved in the organisation and administration of the Radiology Department and teaching of other clinical staff including participation in regular clinico-radiological meetings with other Consultants.
- To be involved in the training of junior Radiology staff, as well as support the informal education of a wide range of multidisciplinary colleagues, including foundation doctors, advanced clinical practitioners, and rotating registrars from Stoke.
- To develop enhanced clinical skills, especially in the assessment and management of acutely ill patients.
- To have excellent team-working skills with the abilities and professional attitude to work well in a multi-professional team.
- To deliver clinical and quality targets agreed both nationally and locally with clinical teams and commissioners.
- To follow patients throughout their clinical pathways.

Organisational

- To work with local managers and professional colleagues in the employing Trust in the efficient running of the service.
- To be subject to the provisions of the Terms and Conditions of Service, be required to observe the Trust's agreed policies and procedures, drawn up in consultation with the profession on clinical matters and to follow the local and national employment and personnel policies and procedures.
- To participate in the Continuous Professional Development and the Trust's appraisal scheme.
- To be aware of the responsibility of all employees to maintain a safe and healthy environment for patients, visitors and staff and attend all relevant health and safety training.
- Ensure that all Trust-wide standards are maintained to improve the quality of total care to all who come into contact with services provided by Shrewsbury and Telford hospital NHS Trust.

This job description is not intended to be exhaustive. The post holder will be expected to carry out any reasonable duties requested of them, appropriate to the grade and role of the post. Duties and responsibilities may vary from time to time in light of changing circumstances and in consultation with the post holder.

Job Description

Job Title:	Locum Consultant Radiologist with Specialist Interest in Chest Imaging
Grade:	Consultant [YC73]
Division:	Clinical Support Services
Responsible to:	Divisional Medical Director
Professionally Accountable to:	Medical Director
Hours:	10 Programmed Activities
Duration:	Fixed Term 12 Months
Salary:	£113,565 - £150,569 per annum

Job Summary

The Shrewsbury and Telford Hospital NHS Trust is looking for a Locum Consultant Radiologist with Specialist Interest in Chest Imaging to support Lung Cancer Screening in a busy and expanding Department, predominantly based at The Princess Royal Hospital (PRH), with responsibilities across both hospitals' sites.

Due to a rapidly expanding workload most interests can be accommodated. One cancer MDT is an expectation; a second interest can likely be accommodated. Lung biopsy skills are expected. The posts will include sessions at the two main hospital sites within an overall flexible group job planning format, with an agreed overall sessional make up as described below.

Apart from lung biopsy work, there is currently no dedicated respiratory imaging component such as a formal MDT. There may, however, be scope to develop a non-cancer MDT in the future, as much of this discussion is presently carried out informally through individual meetings or email correspondence with the chest

physicians. The ability to cover the screening MDT would be highly valuable, and there may also be future opportunities to take on the Responsible Radiologist role.

Applications are welcome from candidates who wish to be considered for a part-time or flexible working arrangement. Contribution to an out of hours on call rota is core to this role.

The Post

The Department

The Department of Radiology consists of 33 rooms across both main hospital sites. A £7 million upgrade of Radiology services was completed in 2022 with an additional CT scanner and replacement of eight general X-ray rooms, two general fluoroscopy rooms, both Angiography & Cardiology suites, and four mobile X-ray units.

The Community Diagnostic Centre (CDC) in Telford houses an MRI scanner, CT scanner, Ultrasound, and radiography rooms.

All imaging modalities are available at both sites:

1. Angiography and Cardiology suites - 2x Philips Azurion
2. General screening rooms - 2x Philips Easy-Diagnostic/Multi-diagnostic
3. General purpose radiography rooms - 8x Philips DigitalDiagnost
4. CT scanners – 3x Siemens; 1x Canon 360 slice; 1x Canon Multislice
5. Mammography – 5x GE (including two mobiles and three fixed site digital units). The Shropshire Breast Screening Service is based at RSH)
6. Nuclear Medicine – 7x Siemens Symbia Pro.specta
7. Ultrasound rooms 8x Canon i700, Siemens Acuson and Philips Epic Elite
8. MRI 1.5T - 4x Siemens Aera
9. Digital mobile X-ray units and Image Intensifiers
10. MRI 1x and CT 1x mobile scanners (ongoing)

The Radiology service is delivered through both main hospital sites, supported by an Agfa EI PACS system (installed 2017 and upgraded in 2022) and the CDC. All clinical departments have access to electronic images and reports and both PRH and RSH have separate web servers for rapid image access for each site. External links currently exist between the Department and the University Hospital of North Staffordshire, Birmingham Children's Hospital, Queen Elizabeth Hospital Birmingham, and the Trust is participating in the Cancer Network image sharing initiative.

The working environment is attractive with air conditioning in several working areas and good-sized Consultant offices. RSH is larger, and whilst spread over a wider area, the Imaging Departments on both sites are close to all the clinical services including A&E, and out-patients. Reporting stations are also planned at CDC's.

In January 2014 a cross-county Radiology on call system started, with the on-call Radiologist covering both RSH and PRH on approximately a 1:19 basis. The first on-call general overnight service is outsourced to an external provider.

Current Medical Staffing (With areas of particular interest noted)

Consultants

Dr M Alkhouly, MBChB FRCR	Consultant Radiologist, Urology & Breast
Dr K Alshantti	Consultant Radiologist, Interventional
Dr J Amarnath, FRCR	Consultant Radiologist, Paediatrics

Dr S Howdle, FRCR	Consultant Radiologist, Gastro-intestinal
Dr A Jayaremegowda	Consultant Radiologist, Lower GI and MSK
Dr M Metelko, MRCP FRCR	Consultant Radiologist, Breast and Gynaecology
Dr L Nadeem, MBBS FRCR	Consultant Radiologist, Paediatrics
Dr S Omar	Consultant Radiologist, Interventional
Dr R Orme, MRCP FRCR	Consultant Radiologist, Interventional Vascular, Lung and Cross-Sectional Imaging
Dr V Pakala, FRCR	Consultant Radiologist, Cardiac and Thoracic
Dr N Rizkalla, FRCR	Consultant Radiologist, Colorectal and Cross-Sectional Imaging
Dr J Rowlands, FRCR	Consultant Radiologist, Uroradiology and Cross-Sectional Imaging
Dr H Sansom, MRCP FRCR	Consultant Radiologist, Head and Neck, Gynaecology, Cross-Sectional Imaging
Dr M Shaikh, MBBS FRCR	Consultant Radiologist, Head & Neck
Dr S Shalaby, MBBCh FRCR	Consultant Radiologist, Urology and Cross-Sectional Imaging
Dr F Singh	Consultant Radiologist, Breast Imaging & Lower GI
Dr C Skillicorn, MRCS FRCR	Consultant Radiologist, Nuclear Medicine, Lung and Cross-Sectional Imaging
Dr T Stone, MRCP FRCR	Consultant Radiologist, Colorectal and Pelvic Imaging, Cross-Sectional Imaging

SAS Doctors

Dr A Abayaratne	Specialist Doctor, Chest
-----------------	--------------------------

Radiographers

(Including Consultant/Advanced Practice in Fluoroscopy/Appendicular, Axial and Chest reporting)	112 WTE
Nursing Staff	4.5 WTE
X-Ray Assistants/Helpers	33 WTE
Clerical Staff (including Radiology Systems Team)	26.5 WTE

Secretarial Support

1.8 WTE B4 Medical Secretaries and 1.6 WTE B3 Support Secretaries across the Consultant team, with additional admin and clerical support within the Department.

Management Structure - Imaging Service Delivery Unit

The Radiology Centre is part of the Clinical Support Services Division comprising Radiology, Pathology, Therapies and Pharmacy.

Divisional Medical Director	Dr Angus McGregor
Divisional Director	Anna Martin
Radiology Clinical Director	Marie Metelko
Radiology Centre Manager	Helen Williams

Skill Mix

- Ultra sonographers perform and report their own U/S examinations (plus two trainee sonographers on rolling training programme)
- Radiographers perform Upper GI Fluoroscopy
- Consultant and Advanced Practitioner Radiographers report appendicular and chest plain films
- Radiology Specialist Registrars on rotation from the University Hospital of North Staffordshire
- Independent reporting Sonographers share approximately 70% of the total ultrasound workload
- In the Breast Screening Service there are 2.5 Consultant Radiographers who manage their own screening and symptomatic workload and Advanced Practitioner Film-Readers and Interventional Procedures

Job Plan

A formal job plan will be agreed between the successful candidate and their Clinical Director and consultant colleagues, on behalf of the Medical Director within 3 months of starting in post. A full-time job plan is based on a 10 PA working week. The job plan will be reviewed annually and is a prospective agreement that sets out the consultant's duties, responsibilities, and objectives for the coming year. It covers all aspects of a consultant's professional practice including clinical work, teaching, research, education and managerial responsibilities. It will provide a clear schedule of commitments, both internal and external and will include personal objectives, detailing links to wider service improvements and trust strategic priorities.

For a full-time contract, the job plan will be divided on average per week (pro-rata for a part time post) as:

- 8.5 Programmed Activities (PAs) of Direct Clinical Care - includes clinical activity, clinically related activity and predictable and unpredictable emergency work.
- 1.5 Supporting Professional Activities (SPAs) - includes CPD, audit, teaching and research.

The allocation of PAs is reviewed and may be subject to adjustment when a further diary exercise is undertaken or if the service demands a review of the team job plan.

Any applicant who is unable, for personal reasons, to work full-time will be eligible to be considered for the post. If such a person is appointed, modification of the job content will be discussed on a personal basis with the Trust in consultation with other consultant colleagues.

Timetable

The following provides scheduling details of the clinical activity and clinically related activity components of the appointee's standard working week. The expectation is for 10 Programmed Activities per week, comprising of 8 Direct Clinical Care sessions (including resident weekend and evening work totalling 1PA) and 2 Supporting Professional Activities.

Day	Time	Location	Work	Category	No. of PAs
Monday	AM	RSH/PRH	Lung Biopsy	DCC	1
	PM	RSH/PRH	SPA 2 hours/ ultrasound 2 hours	DCC/SPA	1
Tuesday	AM	RSH/PRH			
	PM	RSH/PRH	SPA	SPA	1
Wednesday	AM	RSH/PRH	Reporting specialist CT	DCC	1
	PM	RSH/PRH	MRI Reporting In & Out-Patient	DCC	1
Thursday	AM	RSH/PRH	Lung MDT prep/specialist CT reporting	DCC	1
	PM	RSH/PRH	Lung MDT	DCC	1
Friday	AM	RSH/PRH	Inpatient CT	SPA	1
	PM	RSH/PRH	Hot doc/vetting/admin	DCC	1
Resident evening and weekend work & Non-Resident on call work		RSH/PRH	1 in 25 pattern		1
Total PAs	Direct clinical care				8.5
	Supporting professional activities				1.5

This timetable is indicative only and the formal job plan will be agreed between the successful applicant and their clinical director within 3 months of starting in post.

The successful candidate will be expected to work across both PRH and RSH, the formal job plan may include some home reporting sessions. The split of PA's between the two hospitals may vary according to the needs of the successful candidate and the Department, but the overall timetable will remain within the agreed session breakdown of the formal job plan.

Appropriate arrangements will be made for those who wish to consider a part-time appointment.

Flexible SPA's will include appraisal, revalidation, non-clinical administration, clinical governance, audit, CME/CPD, and teaching.

There will be an opportunity for the successful candidate to get involved in the regular MDT meetings and other relevant clinic-radiological meetings.

On-call and cover arrangements

- There is resident out of hours working on a 1 in 19 rota during the weekdays from 17:00 to 20:30. At weekends (Saturday and Sunday), there are two separate 1 in 19 rotas; one covering 08:30 to 14:30, and another covering 08:30 to 17:30
- The out of hours work currently attracts an on-call availability supplement of 3%.
- On-call cover during periods of leave must be arranged through shift swaps with colleagues, while 9AM – 5PM duties will be covered by the department. With the rota published a year in advance and a large, supportive team, arranging swaps is straightforward and well-supported.

General Conditions

Annual Leave

Doctors upon first appointment to the Consultant grade shall be entitled to annual leave at the rate of 32 days a year.

Doctors who have completed a minimum of 7 years' service as a Consultant shall be entitled to annual leave at the rate of 34 days per year.

The rate of annual leave will be based on a full-time contract of 10 PAs. Additional PAs above 10 PAs will not accrue additional entitlements to annual leave over and above the full-time allocation. For consultants working part-time, the full-time entitlement will be pro-rated in accordance with the contracted PAs.

Study Leave

Professional and Study leave includes but is not restricted to participation in:

- Study, usually but not exclusively or necessarily on a course or programme
- Research
- Teaching
- Examining or taking examinations
- Visiting clinics and attending professional conferences
- Training

The appointee will be entitled to 30 days of Study/Professional Leave across a 3-year fixed period with a set budget.

Research

It is usual for the Trust to be participating in many research projects at any time. Every effort would be made to accommodate a particular research interest you may have, particularly if trainee members of the department could be incorporated in the methodological and practical stages.

Audit

Great importance is placed upon audit within the Shrewsbury and Telford Hospital NHS Trust and you will be expected to contribute to this as part of your role. The Trust has a fully staffed Audit Department at both hospitals with extremely well-organised teams.

Appraisal, Revalidation and Mentorship

- The Trust has the required arrangements in place, to ensure that all Doctors have an annual appraisal with a trained appraiser and supports all Doctors going through the revalidation process.
- The Trust supports the Royal College of Physicians Guidance on provision of mentors for new Consultants, in line with GMC recommendations. This will be provided within the Trust.
- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Premier IT Revalidation e-Portfolio (PReP) Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.
- A formal review of the job plan will be performed at least annually. Appropriate educational and training needs will be supported by the Trust, as agreed with the LNC (for example, the approval and funding of study leave). An annual job plan review at individual and departmental level is being introduced. You will be expected to participate in this exercise.

- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Equiniti Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.

Accommodation

The Trust offers single residential accommodation for medical staff depending on availability. The Trust only provides single accommodation so private rental would need to be arranged for family accommodation.

Other Facilities

There is an active Doctors Mess run by the Junior Doctors Mess Committee which organise social events, parties, outings etc. There are on-site fitness centres (a membership fee is payable) available to all members of staff

Office and Secretarial Support

The post holder will have full-time secretarial support with an adequately equipped office that will include a computer with access to Trust IT facilities.

Staff Benefits

There are a number of staff benefits schemes which attract tax reductions if joined. This includes a discount on the staff car parking charge, staff gym membership, on-site crèche/childcare provision and access to NHS Discounts schemes.

Health & Safety

As an employee of the Trust you have a responsibility to:

- Take reasonable care of your own health and safety and that of any other person who may be affected by your acts or omissions at work, and ensuring a COVID secure workplace for the team.
- Co-operate with the Trust in ensuring that Statutory Regulations, Codes of Practice, Local Policies and Departmental Health and Safety Rules are adhered to.
- To not intentionally or recklessly interfere with or misuse anything provided in the interests of health and safety.

Infection Prevention and Control

The prevention and management of acquired infection is a key priority for the Trust. Any breach of Infection Control Policies is a serious matter which may result in disciplinary action. As an employee of the Trust you have a responsibility to:

- Ensure that your work methods are compliant with the Trust's agreed policies and procedures and do not endanger other people or yourself.
- Be aware of Infection Prevention and Control Policies, Practices and Guidelines appropriate for your duties and you must follow these at all times to maintain a safe environment for patients, visitors and staff.
- Maintain an up-to-date knowledge of Infection Prevention and Control, Policies, Practices and Procedures through attendance at annual mandatory updates and ongoing continuing professional development.
- Challenge poor infection prevention and control practices of others and to report any breaches, using appropriate Trust mechanisms (e.g. incident reporting policy).

Information Governance

The Trust is committed to compliance with Information Governance standards to ensure that all information is handled legally, securely, efficiently and effectively. You are required to comply with the Trust's Information Governance policies and standards. Failure to do so may result in action being taken in accordance with the Trust's Disciplinary Procedure.

- Confidentiality and Security - Your attention is drawn to the confidential nature of information collected within the NHS. Whilst you are employed by the Trust you will come into contact with confidential information and data relating to the work of the Trust, its patients or employees. You are bound by your conditions of service to respect the confidentiality of any information you may come into contact with which identifies patients, employees or other Trust personnel, or business information of the Trust. You also have a duty to ensure that all confidential information is held securely at all times, both on and off site.
- Disclosure of Information - The unauthorised use or disclosure of information relating to the Trust's activities or affairs, the treatment of patients or the personal details of an employee, will normally be considered a serious disciplinary offence which could result in dismissal. Upon leaving the Trust's employment and at any time thereafter you must not take advantage of or disclose confidential information that you learnt in the course of your employment. Unauthorised disclosure of any of this information may be deemed as a criminal offence. If you are found to have permitted the unauthorised disclosure of any such information, you and the Trust may face legal action.
- Information Quality and Records Management - You must ensure that all information handled by you is accurate and kept up-to-date and you must comply with the Trust's recording, monitoring, validation and improvement schemes and processes.

Professional Standards and Performance Review

As an employee of the Trust you have a responsibility to:

- Participate in statutory and mandatory training as appropriate for the post.
- Maintain consistently high personal and professional standards and act in accordance with the relevant professional code of conduct.
- Take responsibility for the maintenance and improvement of personal and professional competence and to encourage that of colleagues and subordinates.
- Participate in the Trust's appraisal processes including identifying performance standards for the post, personal objective setting and the creation of a personal development plan in line with the NHS Knowledge and Skills Framework outline for the post.

Safeguarding Children and Vulnerable Adults

We all have a personal and a professional responsibility within the Trust to identify and report abuse. This may be known, suspected, witnessed or have raised concerns. Early recognition is vital to ensuring the patient is safeguarded; other people (children and vulnerable adults) may be at risk. The Trust's procedures must be implemented, working in partnership with the relevant authorities. The Sharing of Information no matter how small is of prime importance in safeguarding children, young people and vulnerable adults.

As an employee of the Trust, you have a responsibility to ensure that:

- You are familiar with and adhere to the Trust's Safeguarding Children Procedures and Guidelines.
- You attend Safeguarding Awareness Training and undertake any additional training in relation to safeguarding relevant to your role.

Social Responsibility

The Trust is committed to behaving responsibly in the way we manage transport, procurement, our facilities, employment, skills and our engagement with the local community so that we can make a positive contribution to society. As an employee of the Trust, you have a responsibility to take measures to support our

contribution and to reduce the environmental impact of our activities relating to energy and water usage, transport, and waste.

Continuous Improvement

The Shrewsbury and Telford Hospital NHS Trust is committed to creating a culture that puts Continuous Improvement at the forefront of our transformational journey and our aim is to empower colleagues at all levels have the confidence, capability, passion, and knowledge, to test changes and make improvements at SaTH and in the communities we serve.

Following a successful five-year partnership with the Virginia Mason Institute in the USA, SaTH continues to further develop and embed the Trust's approach to Continuous Improvement at all levels of the organisation. You will be supported by an Improvement Hub, which will provide the necessary expertise to support you make improvements, while also providing training at various stages of your time at SaTH, as part of your continuing professional development.

No Smoking Policy

There is a no smoking policy in operation within the Trust. Smoking within the Trust's premises or within the Trust's grounds is not permitted.

Miscellaneous

This job description is an outline of the key tasks and responsibilities of the post and is not intended to be an exhaustive list. The job may change over time to reflect the changing needs of the Trust and its services as well as the personal development.

Person Specification

The following pages contain a description of the qualifications, skills, experience, knowledge and other attributes a candidate should ideally possess to successfully perform this role.

QUALIFICATIONS

CRITERIA	ESSENTIAL	DESIRABLE
• MBBS, MBChB or equivalent medical qualification • FRCR or equivalent	✓ ✓	

ENTRY CRITERIA

CRITERIA	ESSENTIAL	DESIRABLE
• Full registration and a licence to practice with the General Medical Council (GMC) • Entry on the General Medical Council (GMC) Specialist Register via one of the following: - Certificate of Completion of Training (CCT) (the proposed CCT date must be within 6 months of the interview) - Certificate of Eligibility for Specialist Registration • Excellent experience in Chest Imaging and knowledge of Cross-Sectional Imaging • Broad radiology skills and experience, including CT, US, plain films, and ultrasound MRI • Experience in chest biopsy • Experience in Cancer Imaging • Experience of active participation in MDT working • Ability to take full and independent responsibility for clinical patient care, including contributing to on-call duties • Skilled in providing expert clinical opinions across a broad spectrum of radiological challenges • Commitment to continuous professional development, including evaluating personal practice and audit • Proven ability to plan and develop radiology services focused on delivering patient-centred care. • Strong organisational skills with the ability to prioritise work	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓	 ✓ ✓

GENERIC CAPABILITIES FRAMEWORK

Professional Values & Behaviours

ESSENTIAL CRITERIA	ESSENTIAL	DESIRABLE
- Practises with the professional values and behaviours expected of all doctors as set out in GMC Good Medical Practice and the Generic Professional Capabilities Framework (or equivalent for dentists). - Demonstrates the underpinning subject-specific competences i.e., knowledge, skills and behaviours relevant to the role setting and scope. - Clinically evaluates and manages a patient, formulating a prioritised differential diagnosis, initiating an appropriate management plan, and reviewing and adjusting this depending on the outcomes of treatment. - Critically reflects on own competence, understands own limits, and seeks help when required. - Communicates effectively and able to share decision-making with patients, relatives and carers; treats patients as individuals, promoting a person-centred approach to their care, including self-management. - Respects patients' dignity, ensures confidentiality and appropriate communication where potentially difficult or where barriers exist, e.g., using interpreters and making adjustments for patients with communication difficulties - Demonstrates key generic clinical skills around the areas of consent; ensuring humane interventions, prescribing medicines safely and using medical devices safely. - Adheres to professional requirements, participating in annual appraisal and reviews of performance and progression. - Awareness of legal responsibilities relevant to the role, such as around mental capacity and deprivation of liberty; data protection; equality and diversity. - Applies basic principles of public health; including population health, promoting health and wellbeing, work, nutrition, exercise, vaccination and illness prevention, as relevant to their specialty.	✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓ ✓	

Leadership & Team Working

CRITERIA	ESSENTIAL	DESIRABLE
- Awareness of their leadership responsibilities as a clinician and demonstrates appropriate leadership behaviour; managing situations that are unfamiliar, complex, or unpredictable and seeking to build collaboration with, and confidence in, others. - Demonstrates understanding of a range of leadership principles, approaches and techniques so can adapt leadership behaviours to improve engagement and outcomes – appreciates own leadership style and its impact on others.	✓ ✓	

• Develops effective relationships across teams and contributes to work and success of these teams – promotes and participates in both multidisciplinary and interprofessional team working.	✓	
• Critically reflects on decision-making processes and explains those decisions to others in an honest and transparent way.	✓	
• Demonstrates ability to challenge others, escalating concerns when necessary.	✓	
• Develops practice in response to changing population health need, engaging in horizon scanning for future developments.	✓	

Patient Safety & Quality Improvement

CRITERIA	ESSENTIAL	DESIRABLE
• Takes prompt action where there is an issue with the safety or quality of patient care, raises and escalates concerns, through clinical governance systems, where necessary.	✓	
• Demonstrates understanding of the basic principles of audit, clinical risk management, evidence-based practice, patient safety and clinical quality improvement initiatives	✓	
• Applies basic human factors principles and practice at individual, team, organisation, and system levels.	✓	
• Collaborates with multidisciplinary and interprofessional teams to manage risk and issues across organisations and settings, with respect for and recognition of the roles of other health professionals.	✓	
• Advocates for, and contributes to, organisational learning.	✓	
• Reflects on personal behaviour and practice, responding to learning opportunities.	✓	

Safeguarding Vulnerable Groups

CRITERIA	ESSENTIAL	DESIRABLE
• Recognises and takes responsibility for safeguarding children, young people, and adults, using appropriate systems for identifying, sharing information, recording and raising concerns, obtaining advice and taking action.	✓	
• Applies appropriate equality and diversity legislation, including disability discrimination requirements, in the context of patient care.	✓	

Education & Training

CRITERIA	ESSENTIAL	DESIRABLE
• Critically assesses own learning needs and ensures a personal development plan reflects both clinical practice and relevant generic capabilities.	✓
