

The Shrewsbury and  
Telford Hospital  
NHS Trust

# Clinical Research Fellow in Obstetrics and Gynaecology

## INFORMATION FOR CANDIDATES

# Our Vision and Values

The Shrewsbury and Telford Hospital NHS Trust is an organisation that strives to provide high quality, safe care for our patients in an environment which our staff are proud to work in

## Our Vision:

“To provide excellent care for the communities we serve”

## Our Values:

## About our Vision

We believe that by adhering to our Vision and working with our Values in mind we can behave in a way which will ensure the right results for the people that matter most – our patients and their families.

## About our Values

Our Trust Values provide a guide for our daily lives which we are all expected to uphold, both at work and when we are representing the Trust.

Our Values were developed by staff and our patients, so they represent what is important to us within the organisation and the way we should all behave towards patients, carers, visitors, partners and each other.

You will see our Values throughout the Trust; they are not just words on a page, they represent what we are about here at SaTH. We want patients and their families to say that the care and service they receive from all of us is consistently high-quality, safe, effective and personalised, so the feelings behind the Values shouldn't come as a surprise to anyone working in the NHS.

The reason why it is important that they are clearly written down is so we all know what's expected, and none of us are surprised if we are asked to explain any unacceptable behaviour.

## About the Trust & Hospital Transformation Programme

The Shrewsbury and Telford Hospital NHS Trust (SaTH) is the main provider of acute hospital services for around half a million people in Shropshire, Telford & Wrekin and mid Wales.

Encompassing some of the most picturesque parts of England and Wales, the Trust's catchment stretches from the Cambrian Mountains in the west, to Newport and the fringes of the Black Country in the east. The main towns include: Bridgnorth, Ludlow, Market Drayton, Oswestry, Shrewsbury and Whitchurch (in Shropshire); Newport, Telford and Wellington (in Telford & Wrekin); and Newtown and Welshpool (in Powys) – all beautiful and unique.

Our main service locations are the Princess Royal Hospital (PRH) in Telford and the Royal Shrewsbury Hospital (RSH) in Shrewsbury which are located 20 minutes' drive apart. Together they provide 99% of our activity. Both hospitals provide a wide range of acute hospital services including accident & emergency, outpatients, diagnostics, inpatient medical care and critical care.

We also provide services such as consultant-led outreach clinics at the Wrekin Community Clinic, Telford, the Robert Jones and Agnes Hunt Orthopaedic Hospital, Gobowen and the Bridgnorth, Ludlow and Whitchurch Community Hospitals.

We employ over 7000 staff, and hundreds of staff and students from other organisations also work in our hospitals. At The Shrewsbury and Telford Hospital NHS Trust (SaTH), there are around 300 volunteers who support patients, their families and colleagues. That net is cast even wider if you include the many charities and organisations whose volunteers also support the Trust including the Lingen Davies Cancer Appeal which is based at the Royal Shrewsbury Hospital.

Our priority is to deliver the best possible diagnostic facilities and high-quality clinical care in a clean, supportive setting. We are committed to ensuring every patient receives effective treatment with respect and dignity.

As part of our long-term vision, to enhance patient care and service delivery, selected services will be either relocating or moving to a cross-site model in 2028. The changes will further bring together our specialist services into a purpose built, modern environment designed to enhance patient care and provide improved working experience for our teams.

As we are currently actively recruiting to roles across services that will be relocating or changing the way the service is delivered, we want to be transparent with all applicants and advise that successful candidates will be expected to move with the service to the Royal Shrewsbury Hospital when the relocation takes place, in early 2028, or move to a cross-site working model.

The relocation will be managed through a formal management of change process, with full consultation and support provided to colleagues throughout the process. An overview of the services that are moving are included on page five of the job pack.

# Overview of Changes

## Royal Shrewsbury Hospital will specialise in Emergency Care:

- Emergency Department
- Urgent Treatment Centre
- Critical Care Unit
- Consultant-led Maternity Care
- Children's Inpatient Services
- Emergency and Trauma Surgery with complex, planned and children's surgery
- Emergency Medicine, including Cardiology, Stroke, Respiratory, and Acute Medicine
- Consultant Neonatal Services
- Radiotherapy and inpatient and day Cancer Care and Treatment

## The Princess Royal Hospital will specialise in Planned Care:

- Diagnostic Endoscopy
- Vibrant planned care site planned inpatient surgery with medical and surgical inpatients on a planned pathway of care.
- Adult and Child outpatients
- Day case surgery centre
- Midwife led unit
- 24/7 urgent treatment service, which would enable 65% patients who would have attended the traditional accident and emergency medicine department to be seen at PRH
- Dedicated procedure suite for local anaesthetics
- Enhanced rehab facilities and new therapy led wards
- Respiratory diagnostic and treatment centre
- Cancer treatment day unit

# Main Duties & Responsibilities

## Clinical

### Research (50%)

- Register for an MD degree at Keele University.
- Lead delivery of the validation study.
- Contribute to protocol development, governance approvals and regulatory submissions.
- Coordinate data collection across participating sites.
- Work collaboratively with researchers at Keele University, King's College London and the University of Strathclyde.
- Undertake statistical analysis with support from methodological experts.
- Present findings at national and international conferences.
- Prepare manuscripts for publication in peer-reviewed journals.
- Contribute to grant applications and future research funding opportunities.
- Support dissemination and implementation of research findings.
- Participate in wider maternal medicine research activities across the Trust and partner institutions.

### Clinical Duties (50%)

The fellow will participate in clinical obstetric practice at ST3 level or above.

Clinical duties will include:

- General Obstetrics and Gynaecology cover
- Antenatal clinics.
- Obstetric and gynaecology emergency care.
- Day assessment unit activity.
- Clinical governance and audit activities.
- Teaching of undergraduate and postgraduate learners.
- Participation in a compliant on-call rota.

Clinical duties will be tailored to support ongoing training and career development whilst maintaining protected academic time.

The post is not designed to replace specialty training, but it is expected that the appointee will demonstrate competencies equivalent to an ST3 or more senior trainee doctor in Obstetrics and Gynaecology.

## Organisational

- To work with local managers and professional colleagues in the employing Trust in the efficient running of the service.
- To be subject to the provisions of the Terms and Conditions of Service, be required to observe the Trust's agreed policies and procedures, drawn up in consultation with the profession on clinical matters and to follow the local and national employment and personnel policies and procedures.
- To participate in the Continuous Professional Development and the Trust's appraisal scheme.
- To be aware of the responsibility of all employees to maintain a safe and healthy environment for patients, visitors and staff and attend all relevant health and safety training.
- Ensure that all Trust-wide standards are maintained to improve the quality of total care to all who come into contact with services provided by Shrewsbury and Telford hospital NHS Trust.

This job description is not intended to be exhaustive. The post holder will be expected to carry out any reasonable duties requested of them, appropriate to the grade and role of the post. Duties and responsibilities may vary from time to time in light of changing circumstances and in consultation with the post holder.

# Poppy's Promise

Poppy's Promise is a compassionate care initiative introduced within this Trust to enhance communication, respect and empathy across every aspect of patient care.

The initiative was founded by Katie Russell, following the loss of her daughter Poppy, who tragically died at just twelve hours old due to failures in care and communication. Born from that experience, Poppy's Promise serves as a powerful reminder that while clinical skill saves lives, it is compassion, listening and respect that define the quality of care and human connection. By embedding this promise across our organisation, we ensure that no patient or family ever feels unseen, unheard, or uncared for.

Poppy's Promise is a five-stage framework that supports NHS staff to provide compassionate, consistent and patient-centred care. It aims to create a culture where empathy and communication are prioritised at every level – from education and recruitment to daily patient interactions.

At the heart of the initiative lies the C.A.R.E. framework, which outlines four guiding principles for staff to follow. The CARE principles form the foundation of Poppy's Promise. They describe the behaviours, attitudes and values that underpin every interaction – between staff and patients, staff and families, and colleagues with one another.

CARE is not an additional task. It is how care is delivered.

## C.A.R.E. Meaning and Practice

**Compassion** - Demonstrate genuine kindness, empathy and humanity in every interaction. Compassion means recognising the emotional as well as the physical needs of patients, families and colleagues, and responding with care, patience and understanding. Small acts of compassion can have a lasting impact.

**Acknowledge** - Actively listen and be fully present. Use eye contact, names and open body language, and acknowledge the individual's feelings, concerns and lived experience. Every person should feel seen, heard and taken seriously.

**Respect** - Treat everyone with dignity, honesty and fairness at all times. Respect individual differences, personal circumstances and lived experience. Trust is built through respectful behaviour, consistency and integrity.

**Empower** - Enable people to be active participants in their care and work. Communicate clearly, encourage questions and shared decision-making, and ensure patients, families and colleagues feel informed, confident and included. Poppy's Promise is more than a framework – it represents a cultural shift towards human-centred care. By adopting these principles, we:

- Strengthen trust and communication between staff and patients

- Reduce avoidable harm through better understanding and listening
- Improve patient experience and staff wellbeing
- Foster a culture of openness, empathy and shared responsibility

Every member of staff has a role to play in bringing Poppy's Promise to life. Whether you are clinical, administrative or support staff, compassion and communication are part of everyone's role.

### **In daily practice, you can:**

- Take a moment before entering a patient's space – centre yourself, focus on the person, not the task
- Use clear, respectful and kind language
- Listen without interruption and acknowledge emotions expressed
- Be honest and transparent, even when conversations are difficult
- Reflect after interactions – consider how your approach made the patient or family feel

### **All staff within the Trust are expected to:**

- Uphold the values of Poppy's Promise in all patient and colleague interactions
- Attend any training, workshops or refreshers provided as part of the initiative
- Support colleagues in modelling compassionate behaviours
- Raise concerns constructively when communication or respect fall short
- Reflect these principles in both professional and personal conduct within the workplace

Together, we can make every interaction an opportunity to care, listen and make a difference.

That is Poppy's Promise.

## Job Description

|                                       |                                                                                     |

### Job Summary

This fellowship provides an outstanding opportunity for a motivated obstetric trainee or equivalent-grade doctor seeking to develop a career in academic obstetrics, maternal medicine and applied artificial intelligence in healthcare.

Applications are invited for an innovative four-year Clinical Research Fellowship in Obstetrics and Gynaecology. The post combines protected academic research time (50%) with clinical training and service provision in obstetrics (50%).

The successful candidate will undertake a higher degree (MD) through Keele University, supervised by Professor William Parry-Smith and supported by an experienced multidisciplinary team of

clinicians, data scientists, statisticians and implementation researchers.

The fellowship focuses on the validation and implementation, an artificial intelligence-supported clinical decision tool designed to improve risk prediction and management of women with hypertensive disorders of pregnancy, particularly pre-eclampsia.

The project is being undertaken in collaboration with leading national academic partners including King's College London and the University of Strathclyde.

The post will provide exceptional opportunities to develop expertise in:

- Maternal medicine
- Hypertensive disorders of pregnancy
- Artificial intelligence and clinical decision support
- Clinical trials and validation studies
- Medical statistics
- Health informatics
- Academic obstetrics and gynaecology
- Research leadership

The successful candidate will be expected to register for an MD at Keele University within six months of appointment.

#### **Academic Affiliation**

Keele University School of Medicine

#### **Research Collaborators**

- Keele University
- King's College London
- University of Strathclyde
- The Shrewsbury and Telford Hospital NHS Trust Research Department

## The Post

### The Department

#### **The Obstetric Service**

The Consultant Obstetric Unit is located at the Princess Royal Hospital with a midwifery led unit in Shropshire. Midwifery practice in mid-Wales is also supported by the Consultant Unit. The Consultant and alongside midwife led unit conducts approximately 4500 deliveries per year.

The Consultant Maternity Unit currently has 56 beds and a Level 2 neonatal unit of 22 cots. 18 of the 27 Consultants are responsible for acute labour ward practice (six Consultants conduct pure gynaecology practice). Consultant presence on the Delivery Suite is resident 168hrs per week.

Antenatal practice is divided up into specific speciality clinics to which expectant mothers are allocated. The vast majority of routine and detailed scans are performed within the department. Specific antenatal clinics are supported by consultant physicians and Nurse Specialists. Antenatal clinics are staffed with two consultants in each clinic and Tier1 or Tier 2 staff are supernumerary and there for education & training.

We have a very active maternal and fetal medicine unit. The vast majority of routine and detailed scans with invasive diagnostic procedures are performed within the department. We have close links with the fetal

medicine departments in Birmingham Women's Hospital and University Hospital North Midlands.

### **Research Project Summary**

#### **Validation of a Clinical Decision Support Tool for Pre-eclampsia**

The fellow will undertake a programme of research examining the clinical performance, usability, implementation and external validation of the tool in women at risk of or affected by pre-eclampsia.

Key objectives include:

- External validation of predictive performance.
- Assessment of calibration and discrimination across diverse populations.
- Investigation of clinical utility and implementation barriers.
- Development of deployment recommendations for NHS maternity services.
- Publication of findings to support wider adoption of AI-enabled maternal risk prediction.

The project will be undertaken collaboratively between Keele University, King's College London, the University of Strathclyde and The Shrewsbury and Telford Hospital NHS Trust.

### **Educational Opportunities**

The successful candidate will have access to:

- Registration for an MD at Keele University.
- Formal research methods training.
- Statistical and methodological support.
- Conference attendance funding (subject to project budgets).
- Opportunities for publication in high-impact journals.
- Teaching opportunities within Keele University School of Medicine.
- Leadership and management development programmes.
- Support towards development of an academic career in Obstetrics and Gynaecology.

### **Expected Research Outputs**

By completion of the fellowship, the successful candidate would be expected to achieve:

- Submission of an MD thesis.
- Multiple peer-reviewed publications.
- National and international presentations.
- Development of expertise in AI-enabled maternal healthcare.
- Contribution to national collaborative research networks.

## Rota Structure

The post-holder will be expected to contribute to the 1:12 full-shift rota. The rota is compliant with the terms and conditions of the 2016 Junior Doctor Contract and WTD and has been carefully designed to maximise training opportunities for doctors whilst maintaining a safe and efficient service, with an even spread of long days and nights. The post holder will be contributing to 50% clinical activity including nights, on-calls and long days. The post holder will also be contributing to 50% research.

## General Conditions

### Annual Leave

The annual leave entitlement for the post holder will reflect the terms and conditions of the 2016 Junior Doctor Contract for doctors and dentists in training. The annual leave year will run from the start date of the doctor's appointment. Based on a standard working week of five days:

- On first appointment to the NHS: 27 days.
- After five years' completed NHS service: 32 days.

### Study Leave

Study leave includes but is not restricted to participation in:

- Study
- Research
- Teaching
- Taking Examinations
- Attending conferences for educational benefit
- Rostered training events

The appointee will be entitled to 10 days of Study Leave over a fixed 12-month period with a set budget.

### Research

It is usual for the Trust to be participating in many research projects at any time. Every effort would be made to accommodate a particular research interest you may have, particularly if trainee members of the department could be incorporated in the methodological and practical stages.

### Audit

Great importance is placed upon audit within the Shrewsbury and Telford Hospital NHS Trust and you will be expected to contribute to this as part of your role. The Trust has a fully staffed Audit Department at both hospitals with extremely well-organised teams.

### Appraisal, Revalidation and Mentorship

- The Trust has the required arrangements in place, to ensure that all Doctors have an annual appraisal with a trained appraiser and supports all Doctors going through the revalidation process.
- The Trust supports the Royal College of Physicians Guidance on provision of mentors for new Consultants, in line with GMC recommendations. This will be provided within the Trust.
- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Premier IT Revalidation e-Portfolio (PReP) Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.
- A formal review of the job plan will be performed at least annually. Appropriate educational and training needs will be supported by the Trust, as agreed with the LNC (for example, the approval and funding of study leave). An annual job plan review at individual and departmental level is being introduced. You will be

expected to participate in this exercise.

- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Equiniti Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.

## Accommodation

The Trust offers single residential accommodation for medical staff depending on availability. The Trust only provides single accommodation so private rental would need to be arranged for family accommodation.

## Other Facilities

There is an active Doctors Mess run by the Junior Doctors Mess Committee which organise social events, parties, outings etc. There are on-site fitness centres (a membership fee is payable) available to all members of staff

## Office and Secretarial Support

The post holder will have full-time secretarial support with an adequately equipped office that will include a computer with access to Trust IT facilities.

## Staff Benefits

There are a number of staff benefits schemes which attract tax reductions if joined. This includes a discount on the staff car parking charge, staff gym membership, on-site crèche/childcare provision and access to NHS Discounts schemes.

## Health & Safety

As an employee of the Trust you have a responsibility to:

- Take reasonable care of your own health and safety and that of any other person who may be affected by your acts or omissions at work, and ensuring a COVID secure workplace for the team.
- Co-operate with the Trust in ensuring that Statutory Regulations, Codes of Practice, Local Policies and Departmental Health and Safety Rules are adhered to.
- To not intentionally or recklessly interfere with or misuse anything provided in the interests of health and safety.

## Infection Prevention and Control

The prevention and management of acquired infection is a key priority for the Trust. Any breach of Infection Control Policies is a serious matter which may result in disciplinary action. As an employee of the Trust you have a responsibility to:

- Ensure that your work methods are compliant with the Trust's agreed policies and procedures and do not endanger other people or yourself.
- Be aware of Infection Prevention and Control Policies, Practices and Guidelines appropriate for your duties and you must follow these at all times to maintain a safe environment for patients, visitors and staff.
- Maintain an up-to-date knowledge of Infection Prevention and Control, Policies, Practices and Procedures through attendance at annual mandatory updates and ongoing continuing professional development.
- Challenge poor infection prevention and control practices of others and to report any breaches, using appropriate Trust mechanisms (e.g. incident reporting policy).

## Information Governance

The Trust is committed to compliance with Information Governance standards to ensure that all information is handled legally, securely, efficiently and effectively. You are required to comply with the Trust's Information Governance policies and standards. Failure to do so may result in action being taken in accordance with the Trust's Disciplinary Procedure.

- Confidentiality and Security - Your attention is drawn to the confidential nature of information collected within the NHS. Whilst you are employed by the Trust you will come into contact with confidential information and data relating to the work of the Trust, its patients or employees. You are bound by your conditions of service to respect the confidentiality of any information you may come into contact with which identifies patients, employees or other Trust personnel, or business information of the Trust. You also have a duty to ensure that all confidential information is held securely at all times, both on and off site.
- Disclosure of Information - The unauthorised use or disclosure of information relating to the Trust's activities or affairs, the treatment of patients or the personal details of an employee, will normally be considered a serious disciplinary offence which could result in dismissal. Upon leaving the Trust's employment and at any time thereafter you must not take advantage of or disclose confidential information that you learnt in the course of your employment. Unauthorised disclosure of any of this information may be deemed as a criminal offence. If you are found to have permitted the unauthorised disclosure of any such information, you and the Trust may face legal action.
- Information Quality and Records Management - You must ensure that all information handled by you is accurate and kept up-to-date and you must comply with the Trust's recording, monitoring, validation and improvement schemes and processes.

## Professional Standards and Performance Review

As an employee of the Trust you have a responsibility to:

- Participate in statutory and mandatory training as appropriate for the post.
- Maintain consistently high personal and professional standards and act in accordance with the relevant professional code of conduct.
- Take responsibility for the maintenance and improvement of personal and professional competence and to encourage that of colleagues and subordinates.
- Participate in the Trust's appraisal processes including identifying performance standards for the post, personal objective setting and the creation of a personal development plan in line with the NHS Knowledge and Skills Framework outline for the post.

## Safeguarding Children and Vulnerable Adults

We all have a personal and a professional responsibility within the Trust to identify and report abuse. This may be known, suspected, witnessed or have raised concerns. Early recognition is vital to ensuring the patient is safeguarded; other people (children and vulnerable adults) may be at risk. The Trust's procedures must be implemented, working in partnership with the relevant authorities. The Sharing of Information no matter how small is of prime importance in safeguarding children, young people and vulnerable adults.

As an employee of the Trust, you have a responsibility to ensure that:

- You are familiar with and adhere to the Trust's Safeguarding Children Procedures and Guidelines.
- You attend Safeguarding Awareness Training and undertake any additional training in relation to safeguarding relevant to your role.

## Social Responsibility

The Trust is committed to behaving responsibly in the way we manage transport, procurement, our facilities, employment, skills and our engagement with the local community so that we can make a positive contribution to society. As an employee of the Trust, you have a responsibility to take measures to support our

contribution and to reduce the environmental impact of our activities relating to energy and water usage, transport, and waste.

## Continuous Improvement

The Shrewsbury and Telford Hospital NHS Trust is committed to creating a culture that puts Continuous Improvement at the forefront of our transformational journey and our aim is to empower colleagues at all levels have the confidence, capability, passion, and knowledge, to test changes and make improvements at SaTH and in the communities we serve.

Following a successful five-year partnership with the Virginia Mason Institute in the USA, SaTH continues to further develop and embed the Trust's approach to Continuous Improvement at all levels of the organisation. You will be supported by an Improvement Hub, which will provide the necessary expertise to support you make improvements, while also providing training at various stages of your time at SaTH, as part of your continuing professional development.

## No Smoking Policy

There is a no smoking policy in operation within the Trust. Smoking within the Trust's premises or within the Trust's grounds is not permitted.

## Miscellaneous

This job description is an outline of the key tasks and responsibilities of the post and is not intended to be an exhaustive list. The job may change over time to reflect the changing needs of the Trust and its services as well as the personal development.

## Person Specification

The following pages contain a description of the qualifications, skills, experience, knowledge and other attributes a candidate should ideally possess to successfully perform this role.
